Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a system for providing a printing capability for a transcription service comprising a Real Time Transcription print server comprising an input/output communication module for providing an interface with the transcription service and the printing means; a fax connection module for maintaining an active connection with the printing means; an audio fragment management module for buffering transcribed text into fragments and sending the fragments to be printed; a multimedia synchronization module for synchronizing multimedia signals with transcribed text output to the printing means, and a synchronizer for receiving separated audio and video signals, for time aligning, if necessary, the separated audio and video signals and for synchronizing the separated audio and video signals with transcribed text output from the audio fragment management module as claimed in claim 1. Similar features are claimed in claims 30, 53, and 87-91. Therefore, claims 30, 53, and 87-91 are allowable over the cited art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
